SUMMARY

Enthusiastic computer engineering student with a strong foundation in coding front-end web development technologies HTML, CSS, JavaScript, React JS, Next JS, and Tailwind CSS. MySQL and PHP for back-end web development. Deep understanding of UX/UI design concepts and principles. Hands-on experience in creating user-friendly and responsive UIs for web platforms. Proficient in collaborative web development and performance optimization. Seeking an internship opportunity to apply and further enhance my skills in front-end web development.

EDUCATION

King Mongkut's University of Technology Thonburi | Bang Mot | Thailand

Bachelor in Computer Engineering | June 2025 – Expected

- **Relevant Courses:** UX/UI, Data Structures and Algorithms, Digital Electronics and Logic Design, Operating System, Big Data Engineering, Database Design, Data Models and Software Engineering

Thai Sikh International School | Samut Prakan | Thailand

High School | June 2021

- **CIE A-Level Subjects:** Mathematics, Chemistry, Physics, and Computer Science **GPA:** 3.74

WORK EXPERIENCE

Web Developer Intern | Nownowinc | May 2024 - Present

- Developed and optimized website using Next.js, Tailwind CSS, and Framer Motion, collaborating with senior developers to enhance performance and user experience.
- Implemented front-end features, conducted testing for compatibility and responsiveness, and participated in daily team strategy meetings.

PERSONAL PROJECTS

Responsive Landing Page | Next JS | Tailwind CSS | April 2024

- Incorporated a dynamic hero video and advanced job filters, enhancing user engagement and search accuracy.
- Delivered a robust job search platform in just 3 days. <https://work-in-japan.vercel.app/>

Responsive Multistep Form | React JS | Tailwind CSS | March 2024

- Developed a fully responsive multistep form, enhancing user experience and interface design.
- Implemented advanced form functionality and responsive layout, ensuring seamless user interactions across various devices.

SKILLS

- **Technical Skills:** HTML, CSS, JavaScript, React, Java, Python, PHP, Bootstrap, Responsive Web Design, SQL, C, UX/UI, UI Design, UX Research, Figma, WordPress, Canva, and Git/GitHub
- **Interpersonal Skills:** Communication and Collaboration, Time Management, Creative and Critical Thinking, Analysis and Teamwork skills, Troubleshooting, and Problem Solving

EXTRA CIRRICULAR ACTIVITIES

iVolunteer Organization | Bangkok | Thailand | 2023

- Contributed 290+ minutes to the iVolunteer organization's Tell a Story campaign.

Youths for SDG Conference | Bangkok | Thailand | 2020

- Participated in Youths for SDG (Sustainable Development Goals) Conference, fostering global sustainability awareness and collaborative initiatives.
